

March 1, 2025

ATTENDANCE POLICY (Chapters/Undergraduates)

As the Fraternity believes strongly in the importance of the International Convention as an avenue for brothers to interact, network and learn from one another, **attendance is required for every active chapter.**

- Every chapter is required to send two delegates. Event fees for these two brothers are included in international dues.
- Full event participation, including attendance at every session, including general and educational sessions, is required.
 - Prospective chapters are required to send one delegate. Full participation is similarly required.
- Additional brothers from your chapter are encouraged to attend for a registration fee of \$425 per person. Additional attendees beyond the required delegation of two must be registered by June 15. The Chapter will be billed for all additional delegates (three and over) on June 16.
- Travel to and from New Orleans is **not** included in the registration cost. Your Chapter should have these costs budgeted for. Individual Brothers should never have to pay for their travel to international ZBT programs.

If your chapter does not meet this expectation:

- Those chapters that do not register and subsequently attend the 2025 International Convention in full are subject to a \$1,900 fine at the directive of the Supreme Council.
- Undergraduate brothers who register but don't attend and actively participate in the event will be subject to a higher fine of \$1,100 per brother, or \$2,200 per chapter, due to the event production cost invested in the brother.
 - Only one appeal round will be granted for these fines to the International Discipline Board.
- You may cancel or replace delegates before June 15 at no charge.
- Registration after June 15 will incur a late fee of \$150 per person.
